The instrumental music was good and well performed. The tableaux, one representing "the battle field" of Buena Vista, the other, the "artist's studio," were very fine. Let other poets sing the praise
Of warrier's deeds in by gone days,
And loudly sound on the trump of fame
An Stevander or a Cassar's name,
The one the whole earth over run,
Then went because his work was done;
While Cassar's name his death survives
For having destroyed two million lives,
Such deeds as these I scorn to due
To point a moral or inspire my muse;
The penceful ways of peaceful men
More worthy for the post's pen.
Of these I'll sing, then, right or wrong—
Plows are my theme, let Georgies be my song.

When after estitution five were past,
And Janus' doors were closed at las,
And Janus' doors were closed at las,
And Italia, land of song and story,
Was one wide waste, red and gory.
Then came Augustus, 'neath whose gentle sway
The arts and actences woke to light of day;
Sweris were converted into perthing banks,
Men unmblested indulged in banks.
From every little was beard the warding bird,
All nature swited upon the peaceful scene,
And touched it over wish her colors green,
White earth, fresh bleeding from unrifal spells,
Now yields her treasures to the hand that toils.
Posterity, then, will Augustus' [name prefong
While lives the theme inspiring Virgil's song.

The wars now over and peace restored,
He laid for his country the foundation
Of future greetness by education;

The source from sheater all causes flow;
For why the weaver shifts the shittle.
The mental why he hears the reutite.

Why metal is iron or why lis sizes,
And even the plow boy site lures
The turk, and thus his bread he serus,
